

NC GreenPower Available

Members of Albemarle EMC have the option to purchase electricity generated by renewable energy. The program, called NC GreenPower, is a statewide initiative designed to improve North Carolina's environment through renewable energy sources such as wind, solar, and biomass. The all-voluntary program allows co-op members to contribute as little as \$4 per month to NC GreenPower, which uses that money to purchase blocks of green power. A \$4 tax-deductible contribution will 100 kilowatt-hours of renewable energy to North Carolina's power supply.

Enrollment Form

Please detach this portion and mail to **P.O. Box 69 Hertford, NC 27944**. You can also visit www.aemc.coop to enroll.
